### ABOUT ME

Hello! I'm Zoë, a motion designer passionate about 2D character animation, illustration, and mixed media. I bring ideas to life, whether it's an animated short starring a character with a big personality, an abstract ad that moves just right, a sleek logo animation, or eye-catching graphic design. From stills to motion, I love combining 2D, 3D, and tactile textures to add charm and depth to my work.

I'm curious by nature, reliable by habit, and always eager to learn. I'm all about collaboration and creativity. I'm ready to bring your ideas into motion.
